**DETAILED ACTION**

***Claim Rejections - 35 USC § 102***

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

2. Claims 5, <sup>b</sup>7, 11, 12, 25, 17, and 60 are rejected under 35 U.S.C. 102(e) as being anticipated by Hargrave et al U.S. Patent Number 5,774,812.

Re Claims 5, <sup>b</sup>7, 25, fig. 1 teaches the Voter 109 (a frame transmitting and receiving device; a frame synchronizer) that determine the if it has received a frame with a frame number and also determines the frame number (a frame number adder) based on the differential delay (expected delay time of the frame) (See col. 3, lines 10-68).

Re Claims 11 and 12, refer to Claim 5, wherein step 207 of fig. 2, wherein updating is based on the setting of the timer value (updating the expected delay time) for the criterion, wherein the subtracting the maximum differential delay with the shortest differential delay (a real delay time) is updated when the preset criterion is not met.

Re Claims 17, 60, refer to Claim 5, fig 3 teaches the frames at the voter (a copying means; switching center); fig. 1 teaches the plurality of physical channels 111 to transmit frames to the receiver 101, wherein the 103, 105, 107 (base station)

inherently includes a transmitter to support bi-directional communication and diversity reception from plurality of the mobiles 101 and 102.

***Response to Arguments***

3. Applicant's arguments with respect to claims 5, 7, 11, 12, 25, 17, and 60 have been considered but are moot in view of the new ground(s) of rejection.

***Conclusion***

4. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
